Dhaka, Bangladesh

ABOUT

My journey: started with web development, learned growth through marketing, now leading with data science. Building intelligent systems that turn complex problems into measurable solutions.

CORE SKILLS

- **Languages**: TypeScript, Python, JavaScript
- **Stack**: React, Next.js, Node.js, AWS, PostgreSQL
- **AI/ML**: Deep Learning, NLP, Computer Vision, Transformer models

TECHNICAL PROFICIENCIES

- Full-Stack Development, Cloud Deployment, API Integration
- Data-Driven Decision Making, AI Model Development, Performance Optimization
- ML research, and growth marketing.

CERTIFICATIONS

- **AI/ML Expert** With **Phitron** (Batch 02) (Duration: 6 months)
- **Complaete** Web Development (Batch 3) with **programming-hero** (Duration: 6 months)

ADDITIONAL INFORMATION

- **Languages**: Fluent in English and Bengali
- **Hobbies**: Exploring tech trends, contributing to open-source projects, mentoring junior developers.

ACHIEVEMENT

Honors & awards: Best Student Award (Web Development) Jun 2019 Associated with Creative It Institute.

LINKS

- **GitHub**: github.com/abdurrahmanse
- **Kaggle**: kaggle.com/abdurrahmansoftw
- **LinkedIn**: linkedin.com/in/abdurrahmanse

EDUCATION

M.SC. IN COMPUTER SCIENCE & ENGINEERING

Dhaka University of Engineering & Technology

2025 - Present

- AI/ML, DL, NLP, CV Experiments with Transformer, BERT, and GANs.
- Involved in research and development of machine learning models that power production systems and business decisions.

B.SC. IN COMPUTER SCIENCE & ENGINEERING

Green University of Bangladesh

2020 — 2024

- **Focus**: Software Development, Algorithm Design, Hardware-Software Integration.
- Built a strong foundation in high-demand, high-paying tech skills.

WORK EXPERIENCE

DIGITAL SOLUTIONS STRATEGIST

Servier Pharmaceuticals Ltd

2026 — Present: Remote · France

- Built data pipelines and ML models improving customer segmentation accuracy by 35%.
- Engineered growth experiments increasing user acquisition by 40% through data-driven marketing.
- Created analytics dashboards enabling real-time product optimization and revenue forecasting.

FRONTEND SOFTWARE ENGINEER

Tanvir Construction Ltd

2021 — 2023: Dhaka, Bangladesh

- Built customer-facing app with Next.js and Tailwind CSS.
- Boosted performance by 30% through code optimization.
- Integrated APIs for seamless data flow.

PUBLICATIONS

Abdur Rahman, "**Transforming Healthcare with AI**: Building an NLP-Based Chatbot for Medical Assistance", Journal of AI and Healthcare, 2024.

- In this paper, we explore the integration of natural language processing in the healthcare sector to improve patient communication and service efficiency.

Abdur Rahman, "**Leveraging Transformer Models for Enhanced Customer Segmentation**", Journal of Data Science and Marketing, 2023.

- This article discusses the application of BERT and other transformer models to refine customer segmentation, leading to more targeted marketing strategies.
